

New York Linux Scene (NYLXS)

&

SoftwareFreedomDay

On August 28, 2004, we will celebrate the first annual Software Freedom Day. On that day, we will make the world aware of the virtues of Free and Open Source Software (FOSS), and encourage its widespread use. NYLXS in conjunction with Software FreedomDay.org will distribute GNU-WinII Free Software and Mepis Linux Live CDs as well as informational fliers detailing Free Software and NYLXS.

Everyone is encouraged and invited to celebrate the 1st Annual NYLXS Software Freedom Day 2004 and be part of this historic event.
