Hello

I would like to apply for your position for a Pharmacy Technician.

I'm a graduate of the LIU School of Pharmacy with over 12 year experience as a Registered Pharmacist. I let my license expire and need time to get all the continuing education credits together to get the registration with NY State again. My expereince has been mostly with 3PM on xenix, but I've worked for 2 years in the Bronx VA Medical center. In retail I've worked for Medical Arts on 13th Avenue, Spectrum Pharmacy on Mcdonald Ave, Karon Pharmacy on Nostrand Ave, and New Utrect Pharmacy on New Utrect Ave.

I was working in the computer field for the last past 5 years, mostly with New York University, as well as in my own business. A recent divorse has caused me to return to Pharmacy. I'm on asset on any staff.

Thanks for you time

Ruben Safir
